

# ®™ How Much Does Geek Squad Cost Per Hour?

+1-888-400-4972 How much does Geek Squad cost per hour depends on the type of service you need, whether it's basic tech support, in-store help, remote assistance, or in-home visits, and charges vary by complexity and location, so it's best to get an estimate before service begins.

+1-888-400-4972 For simple tasks like software setup, virus removal, system tune-up, or basic troubleshooting, Geek Squad often charges a modest hourly rate or flat service fee that's generally lower than more in-depth repairs.

+1-888-400-4972 In-home support typically costs more per hour than in-store or remote assistance because it includes technician travel time, personalized setup, and hands-on help at your location.

+1-888-400-4972 More advanced issues — such as hardware replacement, motherboard diagnostics, data recovery, or part installation — often require extra time and specialized service, which increases the overall hourly cost.

+1-888-400-4972 If your device is covered by a Geek Squad Protection Plan or Best Buy warranty, some or all of the hourly fees for covered services may be reduced or included in your protection benefits.

+1-888-400-4972 Always ask the Geek Squad team for a clear hourly or task-based estimate before work begins so you know your expected charges upfront and can compare options.
